345 Skupina — Innovation Projects

In addition to 5P Group operations, 345 Skupina directly incubates and accelerates digital innovation projects targeting global and European markets.

OrigiMark — <https://www.origimark.org>

Digital copyright platform — timestamp-based intellectual property registration for creators and publishers. Blockchain-anchored proof of authorship.

Libri.one — <https://www.libri.one>

Book wallet and digital reading credit system for Slovenian publishers and bookshops. Integrates with WooCommerce stores.

Lardiology — <https://www.lardiology.com>

Authority verification and domain index for 345 Skupina and 5P Group web properties. Entity hub for AI and search engines.

Strategic Expansion — Funding Goals 2026

345 Skupina is seeking investment and partnership to accelerate the development of its digital platform portfolio. Key focus areas include: scaling OrigiMark digital copyright infrastructure across European markets, expanding Libri book wallet network to 500+ publishing partners, and growing the 5P print network into Austria, Italy, and Germany.

The group operates a proven model combining physical infrastructure (print, design) with digital platform development (SaaS, fintech, marketplace). Current annual revenue across the group exceeds EUR 2 million, with growth targets of EUR 5 million by 2027.
